Things to consider when planning a vacation:

- Domestic or International
- Flights, meals, rental cars, accommodations
 - Weather, culture, time of year

Example: Family ski trip to Colorado

Flights for a family of 4: \$2,000

Car rental when you arrive: \$1,200 for 4 days

Accommodations for 4 nights; \$2,000

Ski rental equipment: \$400

Lift tickets: \$400

Entertainment also includes activities; this can be expensive, or cost nothing at all.

What are some activities you enjoy around town?

Stretching your activity budget:

- Visit the park
- St. Louis Zoo
- Jogging/Running
- Library
- Board Games
- Bike Riding
- Hiking
- Yard Games

If you choose a baseball game, be aware of additional expenses

- Where you park
- Where you sit
- What you eat
- Souvenirs

Dining Out

On average, Americans eat out between 4 and 5 times a week.

Dining out can be convenient but the costs can add up quickly.

How much do you think you spend a week on dining out?
